

# Activity 2

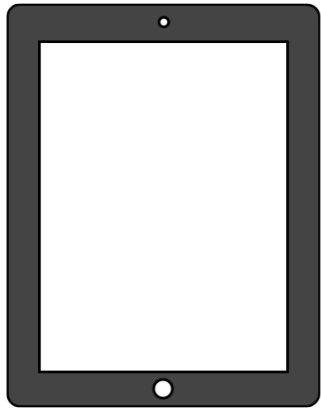

- Think back to your first activity and the specific barriers that students faced
- Could one of the tools you just learned about help a student or students overcome those barriers? If so, how?
- Share ideas with a partner
- Share ideas with the whole group

# Keyboard Activity

- Think back to your first activity and the specific barriers that students faced
- Could one of the keyboard features you just learned about help a student or students overcome those barriers? If so, how?
- Share ideas with small group
- Share ideas with the whole group

# Triad Activity

- Please form triads
- Think back to your first activity and the specific barriers that students faced
- Could any of the features you learned about today, individually or combined, help a student or students overcome those barriers? If so, what features and how would you implement them?
- Share the feature or features and how you'd implement them with your triad then partners will comment/add to each person's idea
