**What we did:**

Used RJ Coopers Point To Pictures, imported some and photos for specific students (ie: Wiggles music and picture of Wiggles). Used a variety of switches and touch screen. Involved parents- what does your child like/like to do?

**What it accomplished:**

Learned cause and effect.  
 picture recognition, social interaction, vocabulary, learned to initiate communication  
 increased attending, parents were amazed at what he could do.

**Comments or Suggestions:**

We lower the computer to about 12-18" toddlers sit in cube seats. Several types of access to programs, eg. wireless BIG BUTTON, Touch Screen on HACH computer.
