
WYNN Reader

version 5.1

1. Quick-Start Guide
2. Software Summary
3. Vendor Support

The development of this project by the AIM Consortium and the Michigan Department of Education IDEA Mandated Activities Project Michigan's Integrated Technology Supports was funded by Grant # H327S070003 from the U. S. Department of Education, Office of Special Education Programs. The contents of this project are not exhaustive and inclusion does not imply endorsement by the U.S. Department of Education, the Michigan Department of Education or the Center for Applied Special Technology (CAST)

1 Quick-Start Guide

1.1 WYNN Reader and WYNN Wizard

1.1.1 WYNN Wizard

Contains reading supports, text display options, writing, studying and internet support tools. Wizard also contains scanning and OCR (Optical Character Recognition) capability.

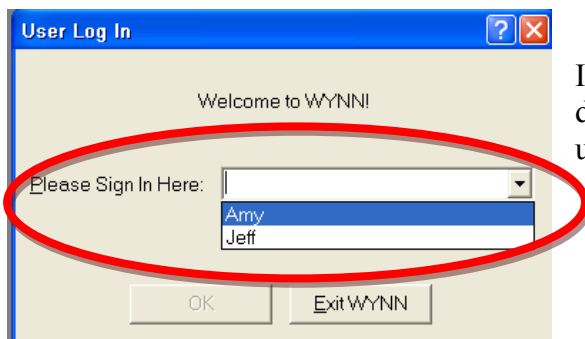

1.1.2 WYNN Reader (featured in this Guide)

Contains all of the features in Wizard, **EXCEPT** scanning and OCR.

1.2 Program Startup and Sign-in

Each user should sign in to set up their own profile. When you sign in, your custom audio and text display settings will be automatically loaded, and the last document or book you used with open at the place you left off.

The first time you use WYNN Reader, type your name in the User Log In box shown here. Then click OK.

If you have already signed in on this computer, use the drop down arrow to show the names of all previous users. Click once on your name, then click OK.

Any changes you make to the default text display or audio settings will be saved with your profile. And all books or documents you open and save will be kept in the WYNN User files folder which can be opened from your desktop by using this shortcut.

1.3 File Formats supported by WYNN

.wyn	WYNN's own exclusive file type
.doc	Microsoft documents
.txt and .rtf	generic text and rich text formats
.html	web page format
.pdf	ONLY supported in WYNN Wizard
.opf	DAISY and NIMAS books*

***Note:** WYNN will only open DAISY and NIMAS books that are text-based, such as those from Bookshare.org. Audio DAISY books like those received from Recordings for Blind and Dyslexic will not open in WYNN.

1.4 Rotating Color-coded toolbars – an Overview

WYNN uses a set of 4 color-coded toolbars. The user may switch from one toolbar to another by using the Next button shown here.

The color of the Next button changes as you rotate through the toolbars, showing you which toolbar you are currently using, and which toolbar will be displayed the next time you click the Next button. **For example:**

This color pattern on the **Next** button indicates that you are currently using the green toolbar, and clicking will move you to the next toolbar - the pink toolbar.

This color pattern indicates that you are using the pink toolbar, and that the yellow toolbar will be displayed when you click the **Next** button.

1.4.1 Common toolbar buttons

There is a set of buttons found on the left side of every color-coded toolbar. These are called the “**common**” buttons.

From any color toolbar, you may use the **Next** button to switch to another toolbar, the **Read** button to read or pause the narration of the document, or the **File List** button to show all of your currently open books or documents.

1.4.2 Blue (file management) toolbar

Create new documents, Open existing books or documents, and Close files.

Open Web browser

1.4.3 Green (reading styles) toolbar

Text display tools

Audio tools

1.4.4 Pink (study tools) toolbar

Dictionary

Highlighting tool

Set bookmarks

Add text notes, and recorded voice notes

1.4.5 Yellow (writing tools) toolbar

Find Bookmarks, Notes, or words in the document

Go To a specific page

Open word prediction

Spell Checker

1.5 Opening a DAISY book

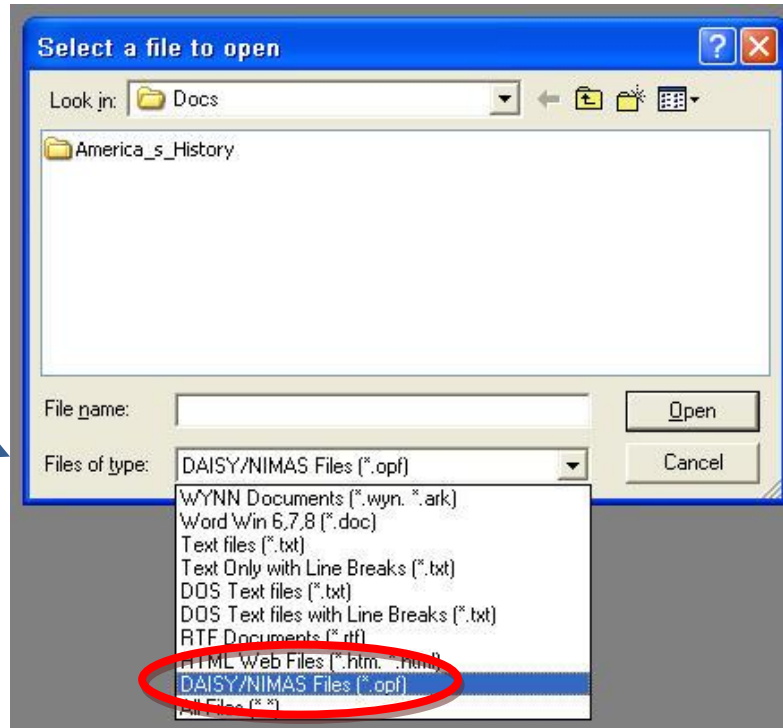

Using the Blue toolbar, Click the **Open** tool.

The **Select a File to Open** window shown here will be displayed.

Go to the **Files of type** window at the bottom and click the drop-down arrow to open a list of supported file formats.

Choose **DAISY/NIMAS Files (.opf)**

Then, use the **Look In** window to browse your computer.

Locate your DAISY book

Click the **Open** button.

1.6 Managing multiple books or files

Use the **File List** tool whenever you have opened more than one book or document.

Close File List

Click once to display the **File List** window at the left side of your screen. All of the books or documents you've opened are shown.

You may easily switch from one book or document to another by clicking once on the titles in the **File List** window.

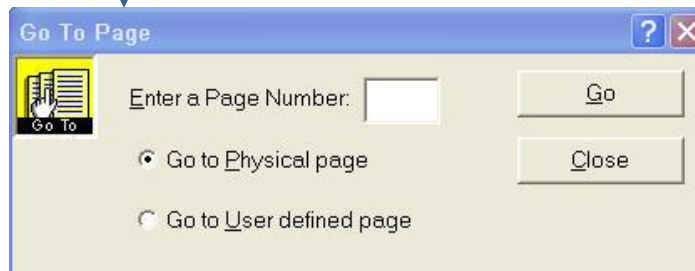

1.7 Moving around a book or document

1.7.1 GoTo Page

From the Yellow toolbar, choose the **GoTo** button shown here

to open the **Go To Page** dialog box:

Type the page you want to move to in the box, then Click the **Go** button.

1.7.2 Scroll bar

The scroll bar is located on the right side of the text window. Use the up or down arrows at the top and bottom of the bar to move backward or forward in the text.

Click and hold the slider bar, then drag up or down to move faster in the book or document.

When you move a new place in the book, click once on the word or sentence to move your cursor to that spot. You may now use the **Read** button to begin the narration.

1.7.3 Page Up, Page Down, Arrow keys

WYNN Reader offers page navigation in all books. The **Page Up** and **Page Down** keys on your keyboard should move you forward or backward in the book by pages.

The **UP** and **DOWN** arrow keys on your keyboard move you in the book by lines. And the **RIGHT** and **LEFT** arrow keys move one character at a time.

1.8 Reading a book or file

WYNN Reader offers the audio reading of text with simultaneous highlighting. To read the text of any open book or document:

1. Click once to move the cursor to a spot in the text to begin reading.
2. Click the **Read** button in any of the toolbars. When reading begins, the **Read** button changes to a **Pause** button.
3. Click **Pause** to stop the narration, and then click **Read** again to re-start.

1.9 Closing a book or file

When finished using a book or document, Click the Close button. The text window will close and the book will be removed from the File List window.

Note: *Closed books are still saved on your computer and may be re-opened at any time.*

1.10 Speech Settings – (in the Settings menu)

In the Settings menu, choose “Speech Settings”

1.11 Text Display tools – (green toolbar)

All buttons shown here are “toggle” buttons, meaning each mouse click cycles through a range of settings, eventually returning back to the beginning.

Use these buttons to change the text **Size**, **Line Spacing**, **Word Spacing**, **Margins** and background **Color** of the page.

1.12 Audio tools – (green toolbar)

More audio features are available with these buttons in the Green toolbar:

1.13 Mark-ups

Bookmarks, Highlights, Text notes and Voice notes are all called “**Mark-ups.**” Mark-ups may be placed within the text of the book. See section “1.18 Finding Mark-ups” in this Quick-start Guide to learn how to find and manage your Mark-ups.

1.14 Bookmarks – (pink toolbar)

From any place in the text, click the **Bookmark** tool. In the drop-down menu, choose the shape/color of your bookmark.

A bookmark looks like this in your text

|The heir who wins the windfall

1.15 Highlighting – (pink toolbar)

To highlight text, click the **Highlight** tool.

Choose the color for your highlighting.

Click and drag through the text to highlight.

Highlighted text looks like this

Erase highlighting by clicking here, then dragging through text

Julian R. Eastman rose. He looked stern. And very proper. He wore a gray business suit with a vest, a striped tie. His shoes were shined. He limped as he walked toward her, not the

1.16 Adding Text and Voice Notes – (pink toolbar)

To add either a Text Note or a Voice Note, click the corresponding button in the pink toolbar

Type your TextNote into the window here, then click the OK button.

For a Voice Note, click Record, speak into your microphone, then click Stop. Click OK when finished

1.17 Finding Mark-Ups – (yellow toolbar)

Remember: Bookmarks, Highlights, Text Notes and Voice Notes are all called “Mark-ups.”

To find your Bookmarks, Highlights, Text Notes, or Voice Notes, click the Find button in the yellow toolbar, then choose “Mark-Up.”

1. In the Find Markup window, choose the type of Markup you are looking for.

2. Choose the Search Direction, then click Find Next.

1.18 Text to MP3 conversion

It is possible to convert text from any document into an MP3 or WAV file. This allows users to listen to a file later at their convenience using any MP3 compatible device, including portable devices like iPods™.

1. From the File menu, choose “Save to Audio”

2. Choose either one page, or a small range of pages for conversion to MP3.

3. In the Save In window, choose Desktop so your new file will be easy to find.

4. Name your new MP3 file.

5. Click Save

2 Software Summary

2.1 Publisher

Freedom Scientific, Learning Systems Group
 11800 31st Court North
 St. Petersburg, FL 33716-1805
 Tel: 800-444-4443

2.1.1 Technical Support Contact Information

Phone: 727-803-8600
 Email: [SoftwareSupport at FreedomScientific.com](mailto:SoftwareSupport@FreedomScientific.com)

2.1.2 Professional Development Program

WYNN Self-guided Training Module on CD (for purchase)
 GoToMeeting online training with Freedom Scientific staff
 On-site trainings at your school
 Dealer trainings in your area

2.1.3 Online

email: [WYNN at freedomscientific.com](mailto:WYNN@freedomscientific.com)
 Web Site: www.freedomscientific.com

2.2 Recommended Use

WYNN contains a comprehensive set of tools for people who struggle with reading and writing. WYNN lets you hear and see what you type into the computer, and will also let you listen to the internet and to files that are already in the computer. WYNN Wizard has scanning and OCR capabilities. WYNN Reader has all of the tools except scanning and OCR.

2.3 System Requirements

Computer Type	Pentium 400 MHz or better processor
Operating System	Windows Vista™, Windows XP, or Windows 2000 (32 bit)
Memory	128 MB of RAM (256 MB if using RealSpeak™ Solo voices)
Sound Card	SoundBlaster 16, compatible with microphone and speakers or headphones
Hard Disk	400 MB of available hard disk space (1GB if installing RealSpeak Solo voices)
Video Display	Video card and monitor capable of at least 800 x 600 resolution with 16-bit high color mode or greater

3 Vendor Information

3.1 Software Help Menu

Full Help menu with Contents, Index and Search tabs.

3.2 Included with purchased software

A complete 250 page User's Guide

3.3 Online training

WYNN User Guide available for free download from Freedom Scientific web site
GoToMeeting online demo sessions are offered – check web site for information.

3.4 Training videos

WYNN Training Module available for purchase. Includes a CD with training videos.
